

K-Love is the radio station of choice for my family. This is the only radio station we listen to while riding in our car. My children ask for this station not only while in my car, but in their aunt's car. If this station was displaced by an LPFM broadcaster in our area, we would have no radio station to listen to. K-LOVE is a station that serves the public in our area not only by the choice of music and never having to worry about language and content, but by the public announcements of free events going on in our area. They also let many good causes air time on their station, giving their listeners opportunities to get involved in helping others. Please keep K-LOVE on the air in the Hampton Roads area - it is a very important part of my family's life!
